RE: Tunnel Ridge, LLC Portable Crushing Unit Application for General Permit Registration (Relocation) G40-C – Nonmetallic Minerals Processing

To Whom It May Concern,

Please find attached two (2) original set and two electronic copies with signatures of an Application for General Permit Registration (G40-C – Nonmetallic Minerals Processing) for the relocation of a portable crushing unit to be in operation in Ohio County, WV. The crushing unit will be operated on an existing coal preparation plant site. If you have any questions, please contact my office at (304) 547-2937.

Sincerely,

Evan Midler

Tunnel Ridge, LLC, 2596 Battle Run Road, Triadelphia, West Virginia 26059 Telephone: (304) 547-2937 Fax: (304) 547-2940

and the second second

ſ	14A. Provide the date of anticipated installation or change: 01/25/2017	14B. Date of anticipated Start-Up
	- If this is an After-The-Fact permit application, provide the date upon which the proposed	if a permit is granted:
	change did happen: / /	01/25/2017

14C. Provide a Schedule of the planned Installation of/Change to and Start-Up of each of the units proposed in this permit	
application as Attachment C (if more than one unit is involved).	

15. Provide maximum projected **Operating Schedule** of activity/activities outlined in this application: Hours Per Day 8 Days Per Week 5 Weeks Per Year50

16. Is demolition or physical renovation at an existing facility involved? 
YES NO

17. Risk Management Plans. If this facility is subject to 112(r) of the 1990 CAAA, or will become subject due to proposed

changes (for applicability help see www.epa.gov/ceppo), submit your Risk Management Plan (RMP) to U. S. EPA Region III.

18. Regulatory Discussion. List all Federal and State air pollution control regulations that you believe are applicable to the

proposed process (if known). A list of possible applicable requirements is also included in Attachment S of this application

(Title V Permit Revision Information). Discuss applicability and proposed demonstration(s) of compliance *(if known)*. Provide this information as **Attachment D**.

#### Section II. Additional attachments and supporting documents.

19. Include a check payable to WVDEP – Division of Air Quality with the appropriate **application fee** (per 45CSR22 and 45CSR13).

20. Include a Table of Contents as the first page of your application package.

21. Provide a **Plot Plan**, e.g. scaled map(s) and/or sketch(es) showing the location of the property on which the stationary source(s) is or is to be located as **Attachment E** (Refer to *Plot Plan Guidance*).

- Indicate the location of the nearest occupied structure (e.g. church, school, business, residence).

22. Provide a **Detailed Process Flow Diagram(s)** showing each proposed or modified emissions unit, emission point and control device as **Attachment F.** 

23. Provide a Process Description as Attachment G.

- Also describe and quantify to the extent possible all changes made to the facility since the last permit review (if applicable).

All of the required forms and additional information can be found under the Permitting Section of DAQ's website, or requested by phone.

24. Provide Material Safety Data Sheets	(MSDS) for all materials proc	essed, used or produced as Attachment H.				
- For chemical processes, provide a MSI	<ul> <li>For chemical processes, provide a MSDS for each compound emitted to the air.</li> </ul>					
25. Fill out the Emission Units Table and	d provide it as Attachment I.					
26. Fill out the Emission Points Data Su	mmary Sheet (Table 1 and 1	Fable 2) and provide it as Attachment J.				
27. Fill out the Fugitive Emissions Data	Summary Sheet and provide	it as Attachment K.				
28. Check all applicable Emissions Unit	Data Sheets listed below:					
Bulk Liquid Transfer Operations	Haul Road Emissions	Quarry				
Chemical Processes	Hot Mix Asphalt Plant	Solid Materials Sizing, Handling and Storage				
Concrete Batch Plant	Incinerator	Facilities				
Grey Iron and Steel Foundry	Indirect Heat Exchanger	Storage Tanks				
General Emission Unit, specify						
Fill out and provide the Emissions Unit D	ata Sheet(s) as Attachment	L.				
29. Check all applicable Air Pollution Co	ontrol Device Sheets listed be	elow:				
Absorption Systems	Baghouse	Flare				
Adsorption Systems	Condenser	Mechanical Collector				
	Electrostatic Precip	itator Uet Collecting System				
Other Collectors, specify						
Fill out and provide the Air Pollution Con	trol Device Sheet(s) as Atta	chment M.				
30. Provide all <b>Supporting Emissions Calculations</b> as <b>Attachment N</b> , or attach the calculations directly to the forms listed in Items 28 through 31.						
31. <b>Monitoring, Recordkeeping, Reporting and Testing Plans.</b> Attach proposed monitoring, recordkeeping, reporting and testing plans in order to demonstrate compliance with the proposed emissions limits and operating parameters in this permit application. Provide this information as <b>Attachment O</b> .						
	y not be able to accept all mea	ether or not the applicant chooses to propose such asures proposed by the applicant. If none of these plans clude them in the permit.				
32. Public Notice. At the time that the a	pplication is submitted, place	a Class I Legal Advertisement in a newspaper of general				
circulation in the area where the source	ce is or will be located (See 45	SCSR§13-8.3 through 45CSR§13-8.5 and <i>Example Legal</i>				
Advertisement for details). Please s	ubmit the Affidavit of Publica	ation as Attachment P immediately upon receipt.				
33. Business Confidentiality Claims. D	oes this application include co	onfidential information (per 45CSR31)?				
	⊠ NO					
segment claimed confidential, includir Notice – Claims of Confidentiality"	ng the criteria under 45CSR§3 guidance found in the <b>Genera</b>					
Se	ction III. Certification	n of Information				
34. Authority/Delegation of Authority. Check applicable Authority Form be		other than the responsible official signs the application.				
Authority of Corporation or Other Busin	ess Entity	Authority of Partnership				
Authority of Governmental Agency		Authority of Limited Partnership				
Submit completed and signed Authority F						
		e Permitting Section of DAQ's website, or requested by phone.				

35A. **Certification of Information**. To certify this permit application, a Responsible Official (per 45CSR§13-2.22 and 45CSR§30-2.28) or Authorized Representative shall check the appropriate box and sign below.

#### Certification of Truth, Accuracy, and Completeness

I, the undersigned Responsible Official / Authorized Representative, hereby certify that all information contained in this application and any supporting documents appended hereto, is true, accurate, and complete based on information and belief after reasonable inquiry I further agree to assume responsibility for the construction, modification and/or relocation and operation of the stationary source described herein in accordance with this application and any amendments thereto, as well as the Department of Environmental Protection, Division of Air Quality permit issued in accordance with this application, along with all applicable rules and regulations of the West Virginia Division of Air Quality and W.Va. Code § 22-5-1 et seq. (State Air Pollution Control Act). If the business or agency changes its Responsible Official or Authorized Representative, the Director of the Division of Air Quality will be notified in writing within 30 days of the official change.

#### **Compliance Certification**

Except for requirements identified in the Title V Application for which compliance is not achieved, I, the undersigned hereby certify that, based on information and belief formed after reasonable inquiry, all air contaminant sources identified in this application are in compliance with all applicable requirements.

	g Plans
Please mail an original and three (3) copies of the complete permit application with the signature(s) to the DAQ, Permitting Section address listed on the first page of this application. Please DO NOT fax permit applications.	ion, at the

Forward 1 copy of the application to the Title V Permitting Group and:

For Title V Administrative Amendments:

□ NSR permit writer should notify Title V permit writer of draft permit,

For Title V Minor Modifications:

Title V permit writer should send appropriate notification to EPA and affected states within 5 days of receipt,

NSR permit writer should notify Title V permit writer of draft permit.

□ For Title V Significant Modifications processed in parallel with NSR Permit revision:

- □ NSR permit writer should notify a Title V permit writer of draft permit,
- Public notice should reference both 45CSR13 and Title V permits,

EPA has 45 day review period of a draft permit.

All of the required forms and additional information can be found under the Permitting Section of DAQ's website, or requested by phone.

## **GENERAL PERMIT G40-C PERMIT PACKAGE**

**Applicant – TUNNEL RIDGE, LLC** 

Location: 1901 Short Creek Road Richland District Ohio County, WV

> Prepared For: Tunnel Ridge, LLC 2596 Battle Run Road Triadelphia, WV 26059

ATTACHMENT A: CURRENT BUSINESS CERTIFICATE

# I, Natalie E. Tennant, Secretary of State of the State of West Virginia, hereby certify that

TUNNEL RIDGE, LLC

was duly authorized under the laws of this state to transact business in West Virginia as a foreign limited liability company on August 08, 2001.

The company is filed as an at-will company, for an indefinite period.

I further certify that the LLC (PLLC) has not been revoked by the State of West Virginia nor has a Certificate of Cancellation been issued.

Therefore, I hereby issue this

# **CERTIFICATE OF AUTHORIZATION**

Validation ID:0WV0Y\_A89MX

Given under my hand and the Great Seal of the State of West Virginia on this day of June 28, 2016

Secretary of State

TOT WEST UIPER

Notice: A certificate issued electronically from the West Virginia Secretary of State's Web site is fully and immediately valid and effective. However, as an option, the issuance and validity of a certificate obtained electronically may be established by visiting the Certificate Validation Page of the Secretary of State's Web site, https://apps.wv.gov/sos/businessentitysearch/validate.aspx entering the validation ID displayed on the certificate, and following the instructions displayed. Confirming the issuance of a certificate is merely optional and is not necessary to the valid and effective issuance of a certificate.

#### **GENERAL PERMIT G40-C PERMIT PACKAGE**

Tunnel Ridge, LLC 2596 Battle Run Road Triadelphia, WV 26059

#### ATTACHMENT B: PROCESS DESCRIPTION

The purpose of this Application for General Permit Registration is to setup a portable rock crushing unit to crush rock excavated at a previously permitted coal mine preparation plant and refuse site in Ohio County, West Virginia. This processed rock will be placed onsite for various uses, such as riprap, energy dissipaters or fill material.

The process will begin with a hydraulic loader moving previously stockpiled rock to the Metso 2008 LT-106 Track Jaw Crusher feeder hopper(1). The vibrating grizzly feeder hopper transfers the rock to the jaw crusher(2). The material will go from the jaw crusher to the main product conveyor. A factory installed water spray bar will provide for dust suppression for the main product conveyor. From the conveyors, the processed rock will go to a screen. The double deck screen will then send different sized material onto one of two conveyor belts. These two conveyor belts will make separate stockpiles. A water truck will provide dust suppression for the stockpiles. The processed rock will be stockpiled for use in site activities at a later date.

#### **GENERAL PERMIT G40-C PERMIT PACKAGE**

Tunnel Ridge, LLC 2596 Battle Run Road Triadelphia, WV 26059

#### ATTACHMENT C: DESCRIPTION OF FUGITIVE EMISSIONS

The potential sources of fugitive particulate emissions are:

- 1. Feeding Vibratory Grizzly Feeder Hopper
- 2. Vibrating Grizzly Feeder Hopper
- 3. Jaw Crusher
- 4. Main Product Conveyor
- 5. Crusher Conveyor to Screen Hopper
- 6. Screen Hopper to conveyor
- 7. Conveyor to screen
- 8. Screen to conveyor
- 9. Screen to side conveyor

The primary fugitive dust control equipment will be a 3,000 gallon water truck. The water truck will be used primarily to control fugitive particulate emissions on the haul roads, and stock piles. By wetting the material in the surge pile and stockpile, fugitive particulate emissions will also be controlled at the receiving hopper and conveyor by moisture carryover. The water truck has a maximum application rate of approximately 10,000 gph and application frequency will be dependent on environmental conditions. The frequency will vary from zero during rainy conditions to approximately four to five applications per day during extremely dry conditions. In addition to the water truck, a factory installed spray bar on the main product conveyor will be used. This spray system has a maximum application rate of 1,000 gph. Again the frequency rate will vary depending on environmental conditions. The spray bar will be used continuously during operation.

#### **ENGINE DATA SHEET**

- 1. Enter the appropriate Source Identification Number for each reciprocating internal combustion compressor/generator engine located at the facility. Multiple compressor engines should be designated CE-1, CE-2, CE-3 etc. Emergency Generator engines should be designated EG-1, EG-2, EG-3 etc. If more than three (3) engines exist, please use additional sheets.
- 2. Enter the Source Status using the following codes:
  - NS Construction of New Source (installation)
  - MS Modification of Existing Source
- ES Existing Source
- RS Removal of Source

#### **GENERAL PERMIT G40-C PERMIT PACKAGE**

#### Applicant – TUNNEL RIDGE, LLC

Location: 1901 Short Creek Road Richland District Ohio County, WV

> ATTACHMENT J: CLASS I LEGAL ADVERTISEMENT

#### AIR QUALITY PERMIT NOTICE Notice of Application

Notice is given that Tunnel Ridge, LLC has applied to the West Virginia Department of Environmental Protection, Division of Air Quality, for a (General Permit Registration) for a Rock Crusher located on 1901 Short Creek Road, Wheeling, in Ohio County, West Virginia.

The applicant estimates the potential to discharge the following Regulated Air Pollutants will be:

Nitrogen Oxides (NOx) – 37.12 tpy Carbon Monoxide (CO) – 8.0 tpy Particulate Matter (PM) Uncontrolled – 4.0 tpy Particulate Matter-10 (PM-10) Uncontrolled – 1.9 tpy

Startup of operation is planned to begin on or about the 20th day of February, 2017. Written comments will be received by the West Virginia Department of Environmental Protection, Division of Air Quality, 601 57<sup>th</sup> Street, SE, Charleston, WV 25304, for at least 30 calendar days from the date of publication of this notice.

Any questions regarding this permit application should be directed to the DAQ at (304) 926-0499, extension 1227, during normal business hours.

Dated this the 20<sup>th</sup> day of January, 2017.
