

Disclosure Form

Directions: Please carefully read each statement. If you have ANY questions, please ask your maintenance provider. The homeowner must sign the form at the bottom. This signifies their receipt, acknowledgement and acceptance of the information.

1. I have been informed that I am required to maintain a contract with an approved service provider for as long as I have my aeration system. I understand that these maintenance providers are not regulated as a utility and therefore they set their prices. Neither the homeowner nor the provider shall cancel the maintenance contract without prior approval from the Division of Water and Waste Management.
2. I also understand that I will be required to have 4 service visits every year (or 2 if covered under Category C).
3. I have been informed that I will be registered under a General Permit, which will expire on June 30, 2029. I understand that I will be required to apply for coverage under the next General Permit at that time and pay an application fee. The fee for the last period was maximum \$75.00, but this may be increased in 2029.
4. I understand that I will have to submit a maintenance contract with an approved service provider through the next Permit period (2034) in order to be reregistered in 2029.
5. I understand that if the effluent being discharged from my system fails to meet the water quality standards set by my Permit, I may be subject to enforcement action. I also understand that enforcement action pursuant to Chapter 22, Article 11 of the Code of West Virginia may result in me being subject to substantial fines.
6. I have received a copy of the General Permit under which I am applying for registration. I have read the information and accept the terms set out in the Permit.
7. I have received a copy of Attachment A that states what my responsibilities will be as a homeowner. I accept these responsibilities and will ask my provider to explain any duties which I do not understand or know how to perform.
8. I understand that I am not to allow construction of the home aeration unit until I have received both notice that I have been registered for coverage under the HAU General Permit from the WVDEP and a construction permit from either the WV Bureau for Public Health or my local health department. (Only applies to new installations.)
9. I understand that if a public sewer system becomes available that I must connect my discharge to that system.
10. I understand that any changes to the HAU treatment system must be approved, through modification of the permit registration, by the Division of Water and Waste Management.
11. I understand that upon sale of the home, I shall notify in writing the DEP of sale and notify the new homeowners that they, along with a certified maintenance provider, will be required to submit a transfer to assume responsibility of the permit registration.
12. I understand that it is my responsibility to **READ** and comply with **ALL** terms and conditions of the HAU General Permit, WV0107000.
