Re: SWN Production Company, LLC- WV DNR B - 009-00108 - 13-2987D

SWN has applied for a Class I Administrative Update to current permit 13-2987C to remove a flash gas compressor engine, three (3) condensate and three (3) produced water tanks, two line heaters and a revision of tank emissions. Since the changes will result in no change or reduction of emissions, it is the writers opinion that SWN be granted this Class I Administrative Update.
