

This permit will supercede and replace Permit R13-[XXXX] (*Not Applicable*)

Facility Location: Moorefield, Hardy County, West Virginia  
Mailing Address: 390 Industrial Park Road, Moorefield, WV 26836  
Facility Description: Sawmills  
NAICS Codes: 321113  
UTM Coordinates: 674.25 km Easting • 4323.12 km Northing • Zone 17  
Permit Type: Modification  
Description of Change: Applicant proposes to relocate equipment for woodworking from their Petersburg, WV facility (R13-1958; 023-00025) to a former cabinet manufacturing facility near Moorefield, WV(R13-2220D; 031-00003).

*Any person whose interest may be affected, including, but not necessarily limited to, the applicant and any person who participated in the public comment process, by a permit issued, modified or denied by the Secretary may appeal such action of the Secretary to the Air Quality Board pursuant to article one [ §§22B-1-1 et seq. ], Chapter 22B of the Code of West Virginia. West Virginia Code §§22-5-14.*

-----  
*As a result of the granting of this permit, the source is not subject to 45CSR30.*

## 2.0. General Conditions

### Definitions

#### 2.1.

All references to the “West Virginia Air Pollution Control Act” or the “Air Pollution Control Act”

##### 2.1.1.

mean those provisions contained in W.Va. Code §§ 22-5-1 to 22-5-18.

The “Clean Air Act” means those provisions contained in 42 U.S.C. §§ 7401 to 7671q, and

##### 2.1.2.

regulations promulgated thereunder.

“Secretary” means the Secretary of the Department of Environmental Protection or such other

##### 2.1.3.

person to whom the Secretary has delegated authority or duties pursuant to W.Va. Code §§ 22-1-6 or 22-1-8 (45CSR§30-2.12.). The Director of the Division of Air Quality is the Secretary’s designated representative for the purposes of this permit.

## **Authority**

### **2.3.**

This permit is issued in accordance with West Virginia Air Pollution Control Act W.Va. Code §§ 22-5-1. et seq. and the following Legislative Rules promulgated thereunder:

- 2.3.1. 45CSR13 – *Permits for Construction, Modification, Relocation and Operation of Stationary Sources of Air Pollutants, Notification Requirements, Temporary Permits, General Permits and Procedures for Evaluation;*

### **2.4. Term and Renewal**

- 2.4.1. This permit supersedes and replaces previously issued Permit R13-[#####]. This Permit shall remain valid, continuous and in effect unless it is revised, suspended, revoked or otherwise changed under an applicable provision of 45CSR13 or any other applicable legislative rule;

#### **Duty to Comply**

### **2.5.**

- The permitted facility shall be constructed and operated in accordance with the plans and
- 2.5.1. specifications filed in Permit Application R13-3300, and any modifications, administrative updates, or amendments thereto. The Secretary may suspend or revoke a permit if the plans and specifications upon which the approval was based are not adhered to;  
**[45CSR§§13-5.11 and 10.3.]**
- 2.5.2. The permittee must comply with all conditions of this permit. Any permit noncompliance constitutes a violation of the West Virginia Code and the Clean Air Act and is grounds for enforcement action by the Secretary or USEPA;  
Violations of any of the conditions contained in this permit, or incorporated herein by reference,
- 2.5.3. may subject the permittee to civil and/or criminal penalties for each violation and further action or remedies as provided by West Virginia Code 22-5-6 and 22-5-7;  
Approval of this permit does not relieve the permittee herein of the responsibility to apply for and
- 2.5.4. obtain all other permits, licenses, and/or approvals from other agencies; i.e., local, state, and federal, which may have jurisdiction over the construction and/or operation of the source(s) and/or facility herein permitted.

#### **Duty to Provide Information**

### **2.6.**

The permittee shall furnish to the Secretary within a reasonable time any information the Secretary may request in writing to determine whether cause exists for administratively updating, modifying, revoking, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the Secretary copies of records to be kept by the permittee. For information claimed to be confidential, the permittee shall furnish such records to the Secretary along with a claim of confidentiality in accordance with 45CSR31. If confidential information is to be sent to USEPA, the permittee shall directly provide such information to USEPA along with a claim of confidentiality in accordance with 40 C.F.R. Part 2.

## **Duty to Supplement and Correct Information**

### **2.7.**

Upon becoming aware of a failure to submit any relevant facts or a submittal of incorrect information in any permit application, the permittee shall promptly submit to the Secretary such supplemental facts or corrected information.

### **Administrative Update**

### **2.8.**

The permittee may request an administrative update to this permit as defined in and according to the procedures specified in 45CSR13.

[45CSR§13-4.]

### **Permit Modification**

### **2.9.**

The permittee may request a minor modification to this permit as defined in and according to the procedures specified in 45CSR13.

[45CSR§13-5.4.]

### **Major Permit Modification**

### **2.10**

The permittee may request a major modification as defined in and according to the procedures specified in 45CSR14 or 45CSR19, as appropriate.

[45CSR§13-5.1]

### **Inspection and Entry**

### **2.11.**

The permittee shall allow any authorized representative of the Secretary, upon the presentation of credentials and other documents as may be required by law, to perform the following:

- a. At all reasonable times (including all times in which the facility is in operation) enter upon the permittee's premises where a source is located or emissions related activity is conducted, or where records must be kept under the conditions of this permit;
- b. Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit;
- c. Inspect at reasonable times (including all times in which the facility is in operation) any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under the permit; and
- d. Sample or monitor at reasonable times substances or parameters to determine compliance with the permit or applicable requirements or ascertain the amounts and types of air pollutants discharged.

## Emergency

### 2.12.

An “emergency” means any situation arising from sudden and reasonable unforeseeable events

#### 2.12.1.

beyond the control of the source, including acts of God, which situation requires immediate corrective action to restore normal operation, and that causes the source to exceed a technology-based emission limitation under the permit, due to unavoidable increases in emissions attributable to the emergency. An emergency shall not include noncompliance to the extent caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, or operator error.

#### 2.12.2.

Effect of any emergency. An emergency constitutes an affirmative defense to an action brought for noncompliance with such technology-based emission limitations if the conditions of Section 2.12.3 are met.

#### 2.12.3.

The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

An emergency occurred and that the permittee can identify the cause(s) of the emergency;

a.

The permitted facility was at the time being properly operated;

b.

During the period of the emergency the permittee took all reasonable steps to minimize levels

c.

of emissions that exceeded the emission standards, or other requirements in the permit; and

The permittee submitted notice of the emergency to the Secretary within one (1) working day

d.

of the time when emission limitations were exceeded due to the emergency and made a request for variance, and as applicable rules provide. This notice must contain a detailed description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

#### 2.12.4.

In any enforcement proceeding, the permittee seeking to establish the occurrence of an emergency has the burden of proof.

#### 2.12.5.

The provisions of this section are in addition to any emergency or upset provision contained in any applicable requirement.

### **Need to Halt or Reduce Activity Not a Defense**

### 2.13.

It shall not be a defense for a permittee in an enforcement action that it should have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit. However, nothing in this paragraph shall be construed as precluding consideration of a need to halt or reduce activity as a mitigating factor in determining penalties for noncompliance if the health, safety, or environmental impacts of halting or reducing operations would be more serious than the impacts of continued operations.

### **Suspension of Activities**

### 2.14.

In the event the permittee should deem it necessary to suspend, for a period in excess of sixty (60) consecutive calendar days, the operations authorized by this permit, the permittee shall notify the

Secretary, in writing, within two (2) calendar weeks of the passing of the sixtieth (60) day of the suspension period.

**Property Rights**

**2.15.**

This permit does not convey any property rights of any sort or any exclusive privilege.

**Severability**

**2.16.**

The provisions of this permit are severable and should any provision(s) be declared by a court of competent jurisdiction to be invalid or unenforceable, all other provisions shall remain in full force and effect.

**Transferability**

**2.17.**

This permit is transferable in accordance with the requirements outlined in Section 10.1 of 45CSR13.

[45CSR§13-10.1.]

**Notification Requirements**

**2.18.**

The permittee shall notify the Secretary, in writing, no later than thirty (30) calendar days after the actual startup of the operations authorized under this permit.

**Credible Evidence**

**2.19.**

Nothing in this permit shall alter or affect the ability of any person to establish compliance with, or a violation of, any applicable requirement through the use of credible evidence to the extent authorized by law. Nothing in this permit shall be construed to waive any defense otherwise available to the permittee including, but not limited to, any challenge to the credible evidence rule in the context of any future proceeding.

### 3.0. Facility-Wide Requirements Limitations and Standards

#### 3.1.

**Open burning.** The open burning of refuse by any person, firm, corporation, association or public

3.1.1. agency is prohibited except as noted in 45CSR§6-3.1.  
[45CSR§6-3.1.]

**Open burning exemptions.** The exemptions listed in 45CSR§6-3.1 are subject to the following

3.1.2. stipulation: Upon notification by the Secretary, no person shall cause, suffer, allow or permit any form of open burning during existing or predicted periods of atmospheric stagnation. Notification shall be made by such means as the Secretary may deem necessary and feasible.  
[45CSR§6-3.2.]

**Asbestos.** The permittee is responsible for thoroughly inspecting the facility, or part of the

3.1.3. facility, prior to commencement of demolition or renovation for the presence of asbestos and complying with 40 C.F.R. § 61.145, 40 C.F.R. § 61.148, and 40 C.F.R. § 61.150. The permittee, owner, or operator must notify the Secretary at least ten (10) working days prior to the commencement of any asbestos removal on the forms prescribed by the Secretary if the permittee is subject to the notification requirements of 40 C.F.R. § 61.145(b)(3)(i). The USEPA, the Division of Waste Management, and the Bureau for Public Health - Environmental Health require a copy of this notice to be sent to them.  
[40CFR§61.145(b) and 45CSR§34]

**Odor.** No person shall cause, suffer, allow or permit the discharge of air pollutants which cause or

3.1.4. contribute to an objectionable odor at any location occupied by the public.  
[45CSR§4-3.1] *[State Enforceable Only]*

**Permanent shutdown.** A source which has not operated at least 500 hours in one 12-month

3.1.5. period within the previous five (5) year time period may be considered permanently shutdown, unless such source can provide to the Secretary, with reasonable specificity, information to the contrary. All permits may be modified or revoked and/or reapplication or application for new permits may be required for any source determined to be permanently shutdown.  
[45CSR§13-10.5.]

**Standby plan for reducing emissions.** When requested by the Secretary, the permittee shall

3.1.6. prepare standby plans for reducing the emissions of air pollutants in accordance with the objectives set forth in Tables I, II, and III of 45CSR11.  
[45CSR§11-5.2.]

#### Monitoring Requirements

#### 3.2.

*[Reserved]*

### 3.3. Testing Requirements

**Stack testing.** As per provisions set forth in this permit or as otherwise required by the Secretary,

#### 3.3.1.

in accordance with the West Virginia Code, underlying regulations, permits and orders, the permittee shall conduct test(s) to determine compliance with the emission limitations set forth in this permit and/or established or set forth in underlying documents. The Secretary, or his duly authorized representative, may at his option witness or conduct such test(s). Should the Secretary exercise his option to conduct such test(s), the operator shall provide all necessary sampling connections and sampling ports to be located in such manner as the Secretary may require, power for test equipment and the required safety equipment, such as scaffolding, railings and ladders, to comply with generally accepted good safety practices. Such tests shall be conducted in accordance with the methods and procedures set forth in this permit or as otherwise approved or specified by the Secretary in accordance with the following:

The Secretary may on a source-specific basis approve or specify additional testing or

a.

alternative testing to the test methods specified in the permit for demonstrating compliance with 40 C.F.R. Parts 60, 61, and 63 in accordance with the Secretary's delegated authority and any established equivalency determination methods which are applicable. If a testing method is specified or approved which effectively replaces a test method specified in the permit, the permit may be revised in accordance with 45CSR§13-4. or 45CSR§13-5.4 as applicable.

The Secretary may on a source-specific basis approve or specify additional testing or

b.

alternative testing to the test methods specified in the permit for demonstrating compliance with applicable requirements which do not involve federal delegation. In specifying or approving such alternative testing to the test methods, the Secretary, to the extent possible, shall utilize the same equivalency criteria as would be used in approving such changes under Section 3.3.1.a. of this permit. If a testing method is specified or approved which effectively replaces a test method specified in the permit, the permit may be revised in accordance with 45CSR§13-4. or 45CSR§13-5.4 as applicable.

c. All periodic tests to determine mass emission limits from or air pollutant concentrations in discharge stacks and such other tests as specified in this permit shall be conducted in accordance with an approved test protocol. Unless previously approved, such protocols shall be submitted to the Secretary in writing at least thirty (30) days prior to any testing and shall contain the information set forth by the Secretary. In addition, the permittee shall notify the Secretary at least fifteen (15) days prior to any testing so the Secretary may have the opportunity to observe such tests. This notification shall include the actual date and time during which the test will be conducted and, if appropriate, verification that the tests will fully conform to a referenced protocol previously approved by the Secretary.

The permittee shall submit a report of the results of the stack test within sixty (60) days of

d.

completion of the test. The test report shall provide the information necessary to document the objectives of the test and to determine whether proper procedures were used to accomplish these objectives. The report shall include the following: the certification described in paragraph 3.5.1.; a statement of compliance status, also signed by a responsible official; and, a summary of conditions which form the basis for the compliance status evaluation. The summary of conditions shall include the following:

1. The permit or rule evaluated, with the citation number and language;
2. The result of the test for each permit or rule condition; and,
3. A statement of compliance or noncompliance with each permit or rule condition.

[WV Code § 22-5-4(a)(14-15) and 45CSR13]

**Recordkeeping Requirements**

**3.4.**

**Retention of records.** The permittee shall maintain records of all information (including

3.4.1.

monitoring data, support information, reports, and notifications) required by this permit recorded in a form suitable and readily available for expeditious inspection and review. Support information includes all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation. The files shall be maintained for at least five (5) years following the date of each occurrence, measurement, maintenance, corrective action, report, or record. At a minimum, the most recent two (2) years of data shall be maintained on site. The remaining three (3) years of data may be maintained off site, but must remain accessible within a reasonable time. Where appropriate, the permittee may maintain records electronically (on a computer, on computer floppy disks, CDs, DVDs, or magnetic tape disks), on microfilm, or on microfiche.

**Odors.** For the purposes of 45CSR4, the permittee shall maintain a record of all odor complaints

3.4.2.

received, any investigation performed in response to such a complaint, and any responsive action(s) taken.

[45CSR§4. *State Enforceable Only.*]

**Reporting Requirements**

**3.5.**

**Responsible official.** Any application form, report, or compliance certification required by this

3.5.1.

permit to be submitted to the DAQ and/or USEPA shall contain a certification by the responsible official that states that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

**Confidential information.** A permittee may request confidential treatment for the submission of

3.5.2.

reporting required by this permit pursuant to the limitations and procedures of W.Va. Code § 22-5-10 and 45CSR31.

**Correspondence.** All notices, requests, demands, submissions and other communications

3.5.3.

required or permitted to be made to the Secretary of DEP and/or USEPA shall be made in writing and shall be deemed to have been duly given when delivered by hand, or mailed first class with postage prepaid to the address(es) set forth below or to such other person or address as the Secretary of the Department of Environmental Protection may designate:

**If to the DAQ:**

Director  
WVDEP  
Division of Air Quality  
601 57<sup>th</sup> Street  
Charleston, WV 25304-2345

**If to the US EPA:**

Associate Director  
Office of Air Enforcement and Compliance Assistance  
(3AP20)  
U.S. Environmental Protection Agency  
Region III  
1650 Arch Street  
Philadelphia, PA 19103-2029

**Operating Fee**

3.5.4.

In accordance with 45CSR22 – Air Quality Management Fee Program, the permittee shall not

3.5.4.1.

operate nor cause to operate the permitted facility or other associated facilities on the same or contiguous sites comprising the plant without first obtaining and having in current effect a Certificate to Operate (CTO). Such Certificate to Operate (CTO) shall be renewed annually, shall be maintained on the premises for which the certificate has been issued, and shall be made immediately available for inspection by the Secretary or his/her duly authorized representative.

3.5.4.2. In accordance with 45CSR22 – Air Quality Management Fee Program, enclosed with this permit is an Application for a Certificate to Operate (CTO). The CTO will cover the time period beginning with the date of initial startup through the following June 30. Said application and the appropriate fee shall be submitted to this office prior to the date of initial startup. For any startup date other than July 1, the permittee shall pay a fee or prorated fee in accordance with Section 4.5 of 45CSR22. A copy of this schedule may be found on the reverse side of the CTO application.

3.5.5. **Emission inventory.** At such time(s) as the Secretary may designate, the permittee herein shall prepare and submit an emission inventory for the previous year, addressing the emissions from the facility and/or process(es) authorized herein, in accordance with the emission inventory submittal requirements of the Division of Air Quality. After the initial submittal, the Secretary may, based upon the type and quantity of the pollutants emitted, establish a frequency other than on an annual basis.

#### 4.0. Source-Specific Requirements Limitations and Standards

##### 4.1.

- 4.1.1. The hourly and annual throughput of wood waste, which includes the as-received moisture, into the Hurst Boiler & Welding Co., Model H-1950-150 WF, 14.4 MMBtu/hr wood waste-fired boiler, identified in permit application R13-3300 as B1, shall not exceed 2,060 pounds per hour nor 5,191 tons per year, respectively. Compliance with the wood waste throughput limit shall be determined using a rolling yearly total. A rolling yearly total shall mean the sum of the throughput at any given time for the previous twelve (12) consecutive months.
- 4.1.2. The Hurst Boiler & Welding Co., Model H-1950-150 WF, 14.4 MMBtu/hr wood waste-fired boiler, identified in permit application R13-3300 as B1, shall use only wood waste as fuel. Alternative fuels may be used only after receiving prior written approval from the Director.
- 4.1.3. Wood waste fuel used to fire the boiler (B1) shall be stored in an enclosed storage silo.
- 4.1.4. Pursuant to 45CSR2, Section 3.1, the emission of smoke and/or particulate matter into the open air from the Hurst Boiler & Welding Co., Model H-1950-150 WF, 14.4 MMBtu/hr wood waste-fired boiler, identified in permit application R13-3300 as B1, shall not exceed, in shade or appearance, ten (10) percent opacity.
- 4.1.5. The Hurst Boiler & Welding Co., Model H-1950-150 WF, 14.4 MMBtu/hr wood waste-fired boiler, identified in permit application R13-3300 as B1, shall be equipped with a multiclone mechanical collector, identified in permit application R13-3300 as DB3, for control of particulate matter emissions. Exhaust from the boiler shall at all times be routed through the multiclone. The multiclone shall be installed, maintained, and operated so as to achieve a minimum design efficiency of 99% in the collection of particulate matter.
- 4.1.6. A fabric filter baghouse, identified in permit application R13-3300 as S1A, shall be installed, maintained, and operated so as to achieve a design efficiency of 99.98% in the control of particulate matter emissions from any and all woodworking equipment vented to the baghouse.
- 4.1.7. Particulate Matter (PM) emissions from the woodworking baghouse designated as emission point E001 shall not exceed the following limits:

Pollutant	lbs/hr	tons/year
Total Suspended Particulate (TSP)	1.27	2.53
Particulate Matter <10um (PM <sub>10</sub> )	0.01	0.03

- 4.1.8. The fabric filter baghouse, identified in permit application R13-3300 as S1B, shall be installed, maintained, and operated so as to achieve a design efficiency of 99.98% in the control of particulate matter emissions from any and all woodworking equipment vented to the baghouse.
- 4.1.9. Particulate Matter (PM) emissions from the woodworking baghouse designated as emission point E002 shall not exceed the following limits:

Pollutant	lbs/hr	tons/year
Total Suspended Particulate (TSP)	0.14	0.28
Particulate Matter <10um (PM <sub>10</sub> )	0.01	0.03

4.1.10. *Operation and Maintenance of Air Pollution Control Equipment.* The permittee shall, to the extent practicable, install, maintain, and operate all pollution control equipment listed in Section 1.0 and associated monitoring equipment in a manner consistent with safety and good air pollution control practices for minimizing emissions, or comply with any more stringent limits set forth in this permit or as set forth by any State rule, Federal regulation, or alternative control plan approved by the Secretary.

**[45CSR§13-5.11.]**

4.1.11. When combusting wood-waste, emissions from the Hurst Boiler & Welding Co., Model H-1950-150 WF, identified in permit application R13-3300 as emission point E003, shall not exceed the following limits:

Pollutant	lbs/hr	tons/year
Carbon Monoxide (CO)	8.64	21.77
Oxides of Nitrogen (NO <sub>x</sub> )	3.17	7.98
Particulate Matter <10um (PM <sub>10</sub> )	2.59	6.53
Sulfur Dioxide (SO <sub>2</sub> )	0.36	0.91
Particulate Matter <2.5um (PM <sub>2.5</sub> )	2.22	5.59
Total Suspended Particulate (TSP)	2.88	7.26
Volatile Organic Compounds (VOCs)	0.55	1.38

4.1.12. The filtered cyclone, identified in permit application R13-3300 as DC1, shall be installed, maintained, and operated so as to achieve a design efficiency of 99.96% in the control of particulate matter emissions from Silo 1 (S1).

**Monitoring Requirements**

**4.2.**

4.2.1. N/A

**Testing Requirements**

**4.3.**

4.3.1. Tests that are required by the Director to determine compliance with the emission limitations set forth in Source-Specific Requirements 4.1.11. of this permit shall be conducted in accordance with the methods as set forth below. The Director may require a different test method or approve an alternative testing upon a formal request. Compliance testing shall be conducted at 100% of the peak load unless otherwise specified by the Director.

- a. Tests to determine compliance with PM emission limits shall be conducted in accordance with Method 5, 5A, 5B, 5C, 5D, 5E, 5F, 5G, or 5H as set forth in 40 CFR 60, Appendix A and EPA Method 201, 201A, and 202 as set forth in 40 CFR 51.

- b. Tests to determine compliance with SO<sub>2</sub> emission limits shall be conducted in accordance with Method 6, 6A, 6B, or 6C as set forth in 40 CFR 60, Appendix A.
  - c. Tests to determine compliance with CO emission limits shall be conducted in accordance with Method 10, 10A, or 10B as set forth in 40 CFR 60, Appendix A.
  - d. Tests to determine compliance with NO<sub>x</sub> emission limits shall be conducted in accordance with Method 7, 7A, 7B, 7C, 7D, or 7E as set forth in 40 CFR 60, Appendix A.
  - e. Tests to determine compliance with VOC emission limits shall be conducted in accordance with Method 18, Method 25, or 25A as set forth in 40 CFR 60, Appendix A.
- 4.3.2. At such reasonable time(s) as the Director may designate, the permittee shall conduct or have conducted test(s) to determine compliance with the emission limitations as set forth in Source-Specific Requirements 4.1.7. and 4.1.9. Test(s) shall be conducted in accordance with Source-Specific Requirement 4.3.1. contained herein. The Director, or his duly authorized representative, may, at his option, witness or conduct such tests. Should the Director exercise his option to conduct such test(s), the operator shall provide all the necessary sampling connections and sampling ports to be located in such manner as the Director may require, power for test equipment, and the required safety equipment such as scaffolding, railings, and ladders to comply with generally accepted good safety practices.

#### **Recordkeeping Requirements**

#### **4.4.**

- 4.4.1. *Record of Monitoring.* The permittee shall keep records of monitoring information that include the following:
- a. The date, place as defined in this permit and time of sampling or measurements;
  - b. The date(s) analyses were performed;
  - c. The company or entity that performed the analyses;
  - d. The analytical techniques or methods used;
  - e. The results of the analyses; and
  - f. The operating conditions existing at the time of sampling or measurement.
- 4.4.2. *Record of Maintenance of Air Pollution Control Equipment.* For all pollution control equipment listed in Section 1.0, the permittee shall maintain accurate records of all required pollution control equipment inspection and/or preventative maintenance procedures.
- 4.4.3. *Record of Malfunctions of Air Pollution Control Equipment.* For all air pollution control equipment listed in Section 1.0, the permittee shall maintain records of the occurrence and duration of any malfunction or operational shutdown of the air pollution control equipment during which excess emissions occur. For each such case, the following information shall be recorded:
- a. The equipment involved.
  - b. Steps taken to minimize emissions during the event.

- c. The duration of the event.
- d. The estimated increase in emissions during the event.

For each such case associated with an equipment malfunction, the additional information shall also be recorded:

- e. The cause of the malfunction.
  - f. Steps taken to correct the malfunction.
  - g. Any changes or modifications to equipment or procedures that would help prevent future recurrences of the malfunction.
- 4.4.4. For the purposes of determining compliance with maximum throughput limits set forth in Source-Specific Requirement 4.1.1., the applicant shall maintain daily records which are to be summarized into monthly reports. Such records shall be retained by the permittee for at least five (5) years. Certified records shall be made available to the Director or his/her duly authorized representative upon request.

#### **4.5. Reporting Requirements**

- 4.5.1. If you own or operate an existing or new biomass-fired boiler or an existing or new oil-fired boiler, you must conduct a performance tune-up according to §63.11223(b) and you must submit a signed statement in the Notification of Compliance Status report that indicates that you conducted a tune-up of the boiler. **[40CFR §63.11214.b]**
- 4.5.2. If you own or operate an existing affected boiler with a heat input capacity of 10 million Btu per hour or greater, you must submit a signed certification in the Notification of Compliance Status report that an energy assessment of the boiler and its energy use systems was completed according to Table 2 to this subpart and is an accurate depiction of your facility. **[40CFR §63.11214.c]**
- 4.5.3. If you own or operate a boiler subject to emission limits in Table 1 of this subpart, you must minimize the boiler's startup and shutdown periods following the manufacturer's recommended procedures, if available. If manufacturer's recommended procedures are not available, you must follow recommended procedures for a unit of similar design for which manufacturer's recommended procedures are available. You must submit a signed statement in the Notification of Compliance Status report that indicates that you conducted startups and shutdowns according to the manufacturer's recommended procedures or procedures specified for a boiler of similar design if manufacturer's recommended procedures are not available. **[40CFR §63.11214.d]**

**CERTIFICATION OF DATA ACCURACY**

I, the undersigned, hereby certify that, based on information and belief formed after reasonable inquiry, all information contained in the attached \_\_\_\_\_, representing the period beginning \_\_\_\_\_ and ending \_\_\_\_\_, and any supporting documents appended hereto, is true, accurate, and complete.

This form shall be signed by a "Responsible Official." "Responsible Official" means one of the following:

<sup>1</sup>

- a. For a corporation: The president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation, or a duly authorized representative of such person if the representative is responsible for the overall operation of one or more manufacturing, production, or operating facilities applying for or subject to a permit and either:
  - (i) the facilities employ more than 250 persons or have a gross annual sales or expenditures exceeding \$25 million (in second quarter 1980 dollars), or the delegation of authority to such representative is approved in advance by the Director;
  - (ii) For a partnership or sole proprietorship: a general partner or the proprietor, respectively;
- b. For a municipality, State, Federal, or other public entity: either a principal executive officer or ranking
- c. elected official. For the purposes of this part, a principal executive officer of a Federal agency includes the chief executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., a Regional Administrator of U.S. EPA); or The designated representative delegated with such authority and approved in advance by the Director.
- d.
