

CAUTION ASBESTOS

CONDUCTING CONSTRUCTION AND DEMOLITION ACTIVITIES WITHOUT A PROPER ASBESTOS INSPECTION IS AGAINST THE LAW!!

FAILURE TO FILE THE PROPER PAPERWORK WILL DELAY YOUR PROJECT!!

Asbestos Containing Material (ACM) is in a lot of substances found at construction and demolition sites, such as:

- thermal system insulation
- ceiling and floor tiles
- transite siding
- linoleum
- plaster
- paint

It's against the law to do the following activities without an asbestos inspection:

- Construction*
- Demolition
- Remodeling
- Renovation

* Note - New Construction which does not tie into or disturb an existing facility does not require an asbestos inspection

KEY POINTS

- **All Construction and Renovation Activities Require Inspection**
- **A Copy of the Inspection Report Must be Sent to BPH and DAQ**
- **Notification Form Must be Sent 10 Working Days Prior to Activity**

**Questions? Contact the WV Division of Air Quality (DAQ) at (304) 926-3739
or the WV Bureau of Public Health (BPH) at (304) 558-1289**

Asbestos is a known carcinogen.
