For Final Minor Modification Permitting Action Under 45CSR30 and Title V of the Clean Air Act

This Fact Sheet serves to address the changes specific to this Minor Modification and shall be considered a supplement to the Fact Sheet corresponding with the Title V operating permit issued on February 1, 2018.

 Permit Number: **R30-00900004-2018**  
 Application Received: **December 17, 2020**  
 Plant Identification Number: **03-54-009-00004**  
 Permittee: **Jupiter Aluminum Corporation**  
 Facility Name: **Jupiter Coil Coating**  
 Mailing Address: **8963 River Road, Wellsburg, WV 26070**

 Permit Action Number: **MM02**  
 Revised: **April 19, 2021**

---

**Physical Location:** Beech Bottom, Brooke County, West Virginia  
**UTM Coordinates:** 528.81 km Easting • 4452.42 km Northing • Zone 17  
**Directions:** Facility is located on the west side of WV State Rt. 2, just south of Beech Bottom.

---

**Facility Description**

The Jupiter Coil Coating Plant manufactures coated metal coils under Standard Industrial Classification (SIC) code 3479.

This minor modification is to include pass through emissions routed to the RTO that were left out when the RTO (4C) was permitted under R13-2379F. These changes were approved under R13-2379G.

**Emissions Summary**

The pass-through combustion emissions from the Coil Coating Line #1 curing ovens are unchanged from what was permitted before R13-2379F was issued. Therefore, the total emissions being emitted from the RTO will be:
Title V Program Applicability Basis
Jupiter Aluminum Corporation is required to have an operating permit pursuant to Title V of the Federal Clean Air Act as amended and 45CSR30 in accordance with 45CSR§30-3.1.a.3. The facility is subject to 40 CFR 63, Subpart SSSS and was a major source of HAPs before the effective date of this subpart.

Legal and Factual Basis for Permit Conditions
The State and Federally-enforceable conditions of the Title V Operating Permits are based upon the requirements of the State of West Virginia Operating Permit Rule 45CSR30 for the purposes of Title V of the Federal Clean Air Act and the underlying applicable requirements in other state and federal rules.

The modification to this facility has been found to be subject to the following applicable rules:

Federal and State: 45CSR13
                     Construction Permits
                     45CSR30    Operating permit requirement.

Each State and Federally-enforceable condition of the Title V Operating Permit references the specific relevant requirements of 45CSR30 or the applicable requirement upon which it is based. Any condition of the Title V permit that is enforceable by the State but is not Federally-enforceable is identified in the Title V permit as such.

The Secretary's authority to require standards under 40 C.F.R. Part 60 (NSPS), 40 C.F.R. Part 61 (NESHAPs), and 40 C.F.R. Part 63 (NESHAPs MACT) is provided in West Virginia Code §§ 22-5-1 et seq., 45CSR16, 45CSR34 and 45CSR30.

Active Permits/Consent Orders
The active permits/consent orders affected by this modification are as follows:

<table>

<td></td>
</tr>
</tbody>
</table>

Conditions from this facility's Rule 13 permit(s) governing construction-related specifications and timing requirements will not be included in the Title V Operating Permit but will remain independently enforceable under the applicable Rule 13 permit(s). All other conditions from this facility's Rule 13 permit(s) governing the source's
operation and compliance have been incorporated into this Title V permit in accordance with the "General Requirement Comparison Table," which may be downloaded from DAQ's website.

**Determinations and Justifications**

The following changes were made to the Title V Permit during this Minor Modification:

- Condition 5.1.13 was updated to reflect the emission limits that include the pass through emissions from Coating Line 1 through the regenerative thermal oxidizer (control device ID: 4C; emission point: 12E).

- Condition 5.1.14 was updated to include a minimum destruction efficiency for existing RTO (3C) which will continue to operate until RTO (4C) is installed and running.

**Non-Applicability Determinations**

The following requirements have been determined not to be applicable to the subject facility due to the following:

**40 CFR Part 64 - Compliance Assurance Monitoring (CAM)** - Emission units with a control device are subject to an NSPS and MACT. Therefore, the facility is exempt from Compliance Assurance Monitoring in accordance with 40 CFR §64.2(b)(1)(i).

**Request for Variances or Alternatives**

None.

**Insignificant Activities**

Insignificant emission unit(s) and activities are identified in the Title V application.

**Point of Contact**

All written comments should be addressed to the following individual and office:

Robert Mullins  
West Virginia Department of Environmental Protection  
Division of Air Quality  
601 57th Street SE  
Charleston, WV 25304  
Phone: 304/926-0499 ext. 41286  
Robert.A.Mullins@wv.gov

**Procedure for Requesting Public Hearing**

During the public comment period, any interested person may submit written comments on the draft permit and may request a public hearing, if no public hearing has already been scheduled. A request for public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. The Secretary shall grant such a request for a hearing if he/she concludes that a public hearing is appropriate. Any public hearing shall be held in the general area in which the facility is located.
Response to Comments (Statement of Basis)

Jupiter Aluminum submitted a comment on March 23, 2021 about a typo in the header of pages 20-28 of R13-2379G. This comment had nothing to do with the changes made to the Title V permit, so no action was taken due to this comment.
