For Final Renewal Permitting Action Under 45CSR30 and Title V of the Clean Air Act

Permit Number: R30-01300001-2022
Application Received: May 20, 2021
Plant Identification Number: 03-54-01300001
Permittee: Eastern Gas Transmission and Storage, Inc.
Facility Name: Yellow Creek Station
Mailing Address: 925 White Oaks Blvd, Bridgeport, WV 26330

Physical Location: Big Springs, Calhoun County, West Virginia
UTM Coordinates: 495.80 km Easting • 4314.80 km Northing • Zone 17
Directions: Take Interstate 79 North to the Big Otter Exit. Take Route 16 North through Grantsville. After leaving Grantsville, travel on Rt. 16N for approximately 6.1 miles to Calhoun County Rt. 6 (Klipstine Road). Turn right on Rt. 6 and travel 1 mile; station is to the right of road.

Facility Description
Yellow Creek Compressor Station is a natural gas compressor station that compresses production gas to Hastings Extraction Plant. It is covered by Standard Industrial Classification (SIC) Code 4922 and North American Industry Classification System (NAICS) Code 486210. The station consists of one (1) 1100 HP natural gas fired reciprocating engine, two (2) 1000 HP natural gas fired reciprocating engines, one (1) dehydrator reboiler, one (1) glycol dehydration unit with thermal oxidizer, one (1) 11 HP air compressor, ten (10) storage tanks of various sizes, and two (2) 192.5 HP emergency generators. The station has the potential to operate seven (7) days per week, twenty-four (24) hours per day.

\textit{Some of the above HAPs may be counted as PM or VOCs.}

Title V Program Applicability Basis
This facility has the potential to emit 246.15 TPY of CO, 445.68 TPY of NO\textsubscript{x}, and 211.34 TPY of VOC. Due to this facility's potential to emit over 100 tons per year of criteria pollutant, Eastern Gas Transmission and Storage, Inc.'s Yellow Creek Compressor Station is required to have an operating permit pursuant to Title V of the Federal Clean Air Act as amended and 45CSR30.

Legal and Factual Basis for Permit Conditions
The State and Federally-enforceable conditions of the Title V Operating Permits are based upon the requirements of the State of West Virginia Operating Permit Rule 45CSR30 for the purposes of Title V of the Federal Clean Air Act and the underlying applicable requirements in other state and federal rules.

This facility has been found to be subject to the following applicable rules:

Federal and State: 45CSR2 Opacity requirements for boilers
Eastern Gas Transmission and Storage, Inc. • Yellow Creek Station

Each State and Federally-enforceable condition of the Title V Operating Permit references the specific relevant requirements of 45CSR30 or the applicable requirement upon which it is based. Any condition of the Title V permit that is enforceable by the State but is not Federally-enforceable is identified in the Title V permit as such.

The Secretary's authority to require standards under 40 C.F.R. Part 60 (NSPS), 40 C.F.R. Part 61 (NESHAPs), and 40 C.F.R. Part 63 (NESHAPs MACT) is provided in West Virginia Code §§ 22-5-1 et seq., 45CSR16, 45CSR34 and 45CSR30.

</tr>
</tbody>
</table>

Conditions from this facility's Rule 13 permit(s) governing construction-related specifications and timing requirements will not be included in the Title V Operating Permit but will remain independently enforceable under the applicable Rule 13 permit(s). All other conditions from this facility's Rule 13 permit(s) governing the source's operation and compliance have been incorporated into this Title V permit in accordance with the "General Requirement Comparison Table," which may be downloaded from DAQ's website.

Determinations and Justifications
This is a fourth renewal. There have been no equipment changes nor changes to the regulatory requirements at this facility since the issuance of R30-01300001-2016 (RE01).

The following changes were made due to the updates in the regulations:
- Conditions 6.2.3.2 (ii) and (iii) were removed because this section of 40 CFR §60.4243(d) has been vacated.
- Conditions 5.4.6, 6.2.5 and 6.4.1 were updated.
- Condition 4.1.7 was removed from this permit because the new dehy (DEHY02) started up on May 2, 2017 and the old dehy (DEHY01) was rendered inoperable within 90 days of that date as required by the permit. The fuel and process gas lines were physically cut to the old dehy on July 11, 2017.
Note:
As stated in condition 5.1.2 of this permit, the company must evaluate the status of their remote stationary RICE every 12 months. The company submitted their most recent ZZZZ remote evaluation for this facility (conducted in June 2021) on January 31, 2022 through email.

**Non-Applicability Determinations**
The following requirements have been determined not to be applicable to the subject facility due to the following:

40 CFR 60 Subpart JJJJ – The compressor engines (EN01 – EN03) are not subject to this subpart since they were manufactured in 1977, before the applicability date.

40 CFR 60 Subpart OOOO – This subpart does not apply to the facility since the facility is a gathering facility that does not have gas wells, centrifugal compressors, reciprocating compressors, and/or pneumatic controllers constructed, modified, or reconstructed after August 23, 2011, and on or before September 18, 2015. Tanks TK11, TK12, and TK13, installed between these applicability dates, do not meet the applicability requirements in 40 CFR § 60.5365(e).

40 CFR 63 Subpart HHH – This subpart does not apply to the facility since the facility is not a transmission or storage station and is not a major source of HAPs.

40 CFR 63 Subpart DDDDD – The reboiler (RBR02) is not subject to this subpart since the facility is not a major source of HAPs.

40 CFR 63 Subpart JJJJJ – The reboiler (RBR02) is not subject to this subpart since it is considered a “process heater,” which is excluded from the definition of “boiler”.

40 CFR 64 – There have been no changes in this permit since the previous renewal was issued, so CAM remains not applicable to any emission unit listed in the renewal application.

**Request for Variances or Alternatives**
None

**Insignificant Activities**
Insignificant emission unit(s) and activities are identified in the Title V application.

**Comment Period**
Beginning Date: February 17, 2022
Ending Date: March 21, 2022

**Point of Contact**
All written comments should be addressed to the following individual and office:

Beena Modi
West Virginia Department of Environmental Protection
Division of Air Quality

Procedure for Requesting Public Hearing
During the public comment period, any interested person may submit written comments on the draft permit and may request a public hearing, if no public hearing has already been scheduled. A request for public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. The Secretary shall grant such a request for a hearing if he/she concludes that a public hearing is appropriate. Any public hearing shall be held in the general area in which the facility is located.

Response to Comments (Statement of Basis)
