Fact Sheet

For Final Renewal Permitting Action Under 45CSR30 and Title V of the Clean Air Act

 Permit Number: R30-03900074-2022
 Application Received: April 21, 2021
 Plant Identification Number: 03-54-039-00074
 Permittee: Columbia Gas Transmission, LLC
 Facility Name: Walgrove Compressor Station
 Mailing Address: 1700 MacCorkle Avenue, SE, Charleston, WV 25314

Physical Location: Walgrove, Kanawha County, West Virginia
UTM Coordinates: 461.60 km Easting • 4,257.41 km Northing • Zone 17
Directions: Traveling I-79 N from Charleston, exit at Elkview and turn right. Go a short distance to US Route 119. Turn left and proceed on US Rt. 119 to the town of Blue Creek. Turn right onto Secondary Route 57, travel across the elk river and turn left at the intersection. The station is approximately 1.5 miles from the intersection on the left.

Facility Description
The Walgrove Station is a natural gas transmission facility covered by Standard Industrial Classification (SIC) 4922. The station has the potential to operate twenty-four (24) hours per day, seven (7) days per week, fifty-two (52) weeks per year. The station consists of one (1) 880 hp, 2-Stroke Lean Burn (2SLB) reciprocating engine/integral compressor, one (1) 440 hp, 4-Stroke Rich Burn (4SRB) reciprocating engine/integral compressor and one (1) 60 hp 4SRB engine/emergency generator.
### Emissions Summary

#### Plantwide Emissions Summary [Tons per Year]

<table>
<thead>
<tr>
<th>Regulated Pollutants</th>
<th>Potential Emissions</th>
<th>2020 Actual Emissions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Carbon Monoxide (CO)</td>
<td>25.32</td>
<td>3.31</td>
</tr>
<tr>
<td>Nitrogen Oxides (NO(_x))</td>
<td>240.85</td>
<td>48.89</td>
</tr>
<tr>
<td>Particulate Matter (PM(_{2.5}))</td>
<td>2.05</td>
<td>0.69</td>
</tr>
<tr>
<td>Particulate Matter (PM(_{10}))</td>

</table>

*Some of the above HAPs may be counted as PM or VOCs.*

### Title V Program Applicability Basis

This facility has the potential to emit 240.85 TPY of NO\(_x\). Due to this facility's potential to emit 100 tons per year of criteria pollutant, Columbia Gas Transmission, LLC’s Walgrove Compressor Station is required to have an operating permit pursuant to Title V of the Federal Clean Air Act as amended and 45CSR30.

### Legal and Factual Basis for Permit Conditions

The State and Federally-enforceable conditions of the Title V Operating Permits are based upon the requirements of the State of West Virginia Operating Permit Rule 45CSR30 for the purposes of Title V of the Federal Clean Air Act and the underlying applicable requirements in other state and federal rules.
This facility has been found to be subject to the following applicable rules:

**Federal and State:**

- 45CSR6  
  Control Of Air Pollution From Combustion Of Refuse.
- 45CSR11  
  Standby Plans For Emergency Episodes.
- 45CSR13  
  Permits For Construction, Modification, Relocation And Operation Of Stationary Sources Of Air Pollutants, Notification Requirements, Administrative Updates, Temporary Permits, General Permits, And Procedures For Evaluation
- 45CSR16  
  Standards Of Performance For New Stationary Sources
- WV Code § 22-5-4 (a) (14)  
  The Secretary can request any pertinent information such as annual emission inventory reporting.
- 45CSR30  
  Operating permit requirement.
- 45CSR34  
  Emission Standards for Hazardous Air Pollutants
- 40 C.F.R. Part 60, Subpart JJJJ  
  Standards of Performance for Stationary Spark Ignition Internal Combustion Engines
- 40 C.F.R. Part 61  
  Asbestos inspection and removal
- 40 C.F.R. Part 63, Subpart ZZZZ  
  National Emissions Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines
- 40 C.F.R. Part 82, Subpart F  
  Ozone depleting substances

**State Only:**

- 45CSR4  
  No objectionable odors.
- 45CSR17  
  To Prevent And Control Particulate Matter Air Pollution From Materials Handling, Preparation, Storage And Other Sources Of Fugitive Particulate Matter

Each State and Federally-enforceable condition of the Title V Operating Permit references the specific relevant requirements of 45CSR30 or the applicable requirement upon which it is based. Any condition of the Title V permit that is enforceable by the State but is not Federally-enforceable is identified in the Title V permit as such.

The Secretary's authority to require standards under 40 C.F.R. Part 60 (NSPS), 40 C.F.R. Part 61 (NESHAPs), and 40 C.F.R. Part 63 (NESHAPs MACT) is provided in West Virginia Code §§ 22-5-1 et seq., 45CSR16, 45CSR34 and 45CSR30.

### Active Permits/Consent Orders

Conditions from this facility's Rule 13 permit(s) governing construction-related specifications and timing requirements will not be included in the Title V Operating Permit but will remain independently enforceable under the applicable Rule 13 permit(s). All other conditions from this facility's Rule 13 permit(s) governing the source's operation and compliance have been incorporated into this Title V permit in accordance with the "General Requirement Comparison Table," which may be downloaded from DAQ's website.
Determinations and Justifications
This is a renewal of the Title V permit which was issued on November 21, 2016 and modified on August 11, 2020. Substantial changes to the most recent version of the Title V Permit consist of the following:

1) **Condition 5.1.8.** – This condition has been revised to remove the 40 CFR 60 Subpart JJJJ vacated requirements in §§60.4243(d)(2)(ii) and (iii). The citation of authority has also been updated.

2) **Condition 5.1.10.** – The language in this condition has been updated to the revised language of 40 CFR §60.4243(f).

3) **Condition 5.4.3.** – Part “90” was deleted from this requirement since it has been deleted in 40 CFR §60.4245(a)(3).

Non-Applicability Determinations
The following requirements have been determined not to be applicable to the subject facility due to the following:

45CSR4 *To Prevent and Control the Discharge of Air Pollutants into the Open Air Which Cause or Contributes to an Objectionable Odor or Odors:* This State Rule shall not apply to the following source of objectionable odor until such time as feasible control methods are developed: Internal combustion engines.

45CSR10 *To Prevent and Control Air Pollution from the Emission of Sulfur Dioxide - Emissions from Indirect Heat Exchangers.* WVDAQ has determined that 45CSR10 does not apply to natural gas fired engines. Additionally, there are no other fuel burning units operating at this facility.

45CSR21 *To Prevent and Control Air Pollution from the Emission of Volatile Organic Compounds:* All storage tanks at the station, are listed as insignificant sources and are below 40,000 gallons in capacity, which exempts the facility from 45CSR §21-28. The compressor station is not engaged in the extraction or fractionation of natural gas which exempts the facility from 45CSR §21-29.

45CSR27 *To Prevent and Control the Emissions of Toxic Air Pollutants:* Natural gas is included as a petroleum product and contains less than 5% benzene by weight. 45CSR §27-2.4 exempts equipment “used in the production and distribution of petroleum products providing that such equipment does not produce or contact materials containing more than 5% benzene by weight.”

40 CFR 60 Subpart Dc *Standards of Performance for Steam Generating Units:* There are no fuel burning steam generating units operated at this facility and therefore the site has no affected sources that would meet applicability criteria defined within 40 CFR §60.40c (a).

40 CFR 60 Subpart GG *Standards of Performance for Stationary Gas Turbines.* The provisions of this subpart are not applicable because this facility does not operate gas turbines for compression.

40 CFR 60 Subpart IIII *Standards of Performance for Stationary Compression Ignition Internal Combustion Engines.* The Compressor Station does not utilize compression ignition internal combustion engines.
40 CFR 60  Standards of Performance for Petroleum Liquid Storage Vessels. All storage tanks at the station are below the applicability criteria of 40,000 gallons in capacity as stated in 40 CFR §§60.110(a) and 60.110a(a).

40 CFR 60  Standards of Performance for Petroleum Liquid Storage Vessels. All tanks at the station are below the applicability criteria of 75 cubic meters (19,813 gallons) in capacity as stated in 40 CFR §60.110b(a).

40 CFR 60  Standards of Performance for Equipment Leaks of VOC From Onshore Natural Gas Processing Plants. The station is not engaged in the extraction or fractionation of natural gas liquids from field gas, the fractionation of mixed natural gas liquids to natural gas products, or both. As a result, the station has no affected sources operating within this source category.

40 CFR 60  Standards of Performance for Stationary Combustion Turbines. The provisions of this subpart are not applicable because the facility does not utilize turbines for compression.

40 CFR 60  Standards of Performance for Crude Oil and Natural Gas Production, Transmission, and Distribution for which Construction, Modification, or Reconstruction Commenced after August 23, 2011 and on or before September 18, 2015. The Storage Vessel requirement defined for transmission sources is not applicable to this site because all vessels commenced construction, or were modified or reconstructed, prior to August 23, 2011 in accordance with the applicability criteria defined within 40 CFR §60.5365(e). No other affected sources were identified at this site.

40 CFR 60  Standards of Performance for Crude Oil and Natural Gas Facilities for which Construction, Modification, or Reconstruction Commenced after September 18, 2015. The requirements defined by this NSPS are not applicable to this site because all affected sources commenced construction prior to September 18, 2015 in accordance with the applicability criteria defined within 40 CFR §60.5365a.

40 CFR 63  National Emission Standards for Hazardous Air Pollutants from Natural Gas Transmission and Storage Facilities. The Compressor Station is not subject to Subpart HHH since the station does not utilize dehydration and is not a major source of HAPs.

40 CFR 63  National Emission Standards for Hazardous Air Pollutants for Stationary Combustion Turbines. The provisions of this subpart are not applicable because the site is not classified as a major HAP source and it does not utilize turbines for compression.

40 CFR 63  National Emission Standards for Hazardous Air Pollutants for Industrial, Commercial, and Institutional Boilers and Process Heaters. The provisions of this subpart do not apply to this Station since it does not exceed major source HAP thresholds. Additionally, there are no boilers or process heaters at this site.
National Emission Standards for Hazardous Air Pollutants for Industrial, Commercial, and Institutional Boilers Area Sources. The facility is not subject to 40 CFR Part 63 Subpart JJJJJJ since there are no steam generating units utilized at this site.

Compliance Assurance Monitoring (CAM). The facility does not have any pollutant specific emissions units (PSEU) that satisfied all of the applicability criteria requirements of 40 CFR §64.2(a). There have been no changes to any equipment at the facility since the last renewal that have resulted in a source satisfying the applicability requirements of 40 CFR §64.2(a) and becoming subject to CAM.

Request for Variances or Alternatives
None.

Insignificant Activities
Insignificant emission unit(s) and activities are identified in the Title V application.

Comment Period
Beginning Date: February 8, 2022
Ending Date: March 10, 2022

Point of Contact
All written comments should be addressed to the following individual and office:

Frederick Tipane
West Virginia Department of Environmental Protection
Division of Air Quality
601 57th Street SE
Charleston, WV 25304

Procedure for Requesting Public Hearing
During the public comment period, any interested person may submit written comments on the draft permit and may request a public hearing, if no public hearing has already been scheduled. A request for public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. The Secretary shall grant such a request for a hearing if he/she concludes that a public hearing is appropriate. Any public hearing shall be held in the general area in which the facility is located.

Response to Comments (Statement of Basis)
Not applicable.
