Fact Sheet

For Final Renewal Permitting Action Under 45CSR30 and Title V of the Clean Air Act

Permit Number: R30-03900101-2021
Application Received: February 22, 2021
Plant Identification Number: 039-00101
Permittee: Columbia Gas Transmission, LLC
Facility Name: Hunt Compressor Station
Mailing Address: 1700 MacCorkle Avenue, S.E., Charleston, WV 25314

Physical Location: 105 Patterson Drive, Elkview, Kanawha County, West Virginia
UTM Coordinates: 458.64 km Easting • 4262.67 km Northing • Zone 17
Directions: From Charleston, take I-79N to Elkview exit, turn left and travel on Secondary Rt. 43 to the town of Frame. Turn left onto Secondary Rt. 37 and station is about 0.75 mile on the left.

Facility Description
Columbia Gas Transmission, LLC, Hunt Compressor Station is a natural gas transmission/storage facility covered by a Standard Industrial Classification (SIC) of 4922 and a North American Industrial Classification System (NAICS) of 48621. The station has the potential to operate seven (7) days per week, twenty-four (24) hours per day. The station consists of one (1) 1.56 MMBtu/hr heating system boiler, one (1) 1,100 HP natural gas fired reciprocating engine, and one (1) 132 HP reciprocating engine with generator.
Emissions Summary

Plantwide Emissions Summary [Tons per Year]

<table>
<thead>
<tr>
<th>Regulated Pollutants</th>
<th>Potential Emissions</th>
<th>2020 Actual Emissions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Carbon Monoxide (CO)</td>
<td>11.61</td>
<td>0</td>
</tr>
<tr>
<td>Nitrogen Oxides (NO\textsubscript{x})</td>
<td>124.50</td>

</table>

Some of the above HAPs may be counted as PM or VOCs.

Title V Program Applicability Basis
This facility has the potential to emit 124.50 TPY of NO\textsubscript{x}. Due to this facility's potential to emit over 100 tons per year of criteria pollutant, Columbia Gas Transmission, LLC is required to have an operating permit pursuant to Title V of the Federal Clean Air Act as amended and 45CSR30.

Legal and Factual Basis for Permit Conditions
The State and Federally-enforceable conditions of the Title V Operating Permits are based upon the requirements of the State of West Virginia Operating Permit Rule 45CSR30 for the purposes of Title V of the Federal Clean Air Act and the underlying applicable requirements in other state and federal rules.

This facility has been found to be subject to the following applicable rules:

<table>
<thead>
<tr>
<th>Federal and State</th>
<th>45CSR2</th>
<th>45CSR6</th>
</tr>
</thead>
<tbody>
<tr>
<td>Particulate air pollution from combustion of fuel in indirect heat exchangers.</td>
<td>Open burning prohibited.</td>
<td></td>
</tr>
</tbody>
</table>
Each State and Federally-enforceable condition of the Title V Operating Permit references the specific relevant requirements of 45CSR30 or the applicable requirement upon which it is based. Any condition of the Title V permit that is enforceable by the State but is not Federally-enforceable is identified in the Title V permit as such.

The Secretary's authority to require standards under 40 C.F.R. Part 60 (NSPS), 40 C.F.R. Part 61 (NESHAPs), and 40 C.F.R. Part 63 (NESHAPs MACT) is provided in West Virginia Code §§ 22-5-1 et seq., 45CSR16, 45CSR34 and 45CSR30.

### Active Permits/Consent Orders

</tr>
</tbody>
</table>

Conditions from this facility's Rule 13 permit(s) governing construction-related specifications and timing requirements will not be included in the Title V Operating Permit but will remain independently enforceable under the applicable Rule 13 permit(s). All other conditions from this facility's Rule 13 permit(s) governing the source's operation and compliance have been incorporated into this Title V permit in accordance with the “General Requirement Comparison Table,” which may be downloaded from DAQ's website.

### Determinations and Justifications

This is the fourth renewal of the Title V permit. The following changes to the Title V permit were made as part of this renewal:

- Vacated sections 40 C.F.R. §§63.6640(f)(2)(ii) and (iii) have been deleted from condition 6.1.4.
- The reporting requirements of 40 C.F.R. §63.6650(h) have been included as condition 6.5.3.

### Non-Applicability Determinations

The following requirements have been determined not to be applicable to the subject facility due to the following:

- **45CSR4—To Prevent and Control the Discharge of Air Pollutants into the Open Air Which Cause or Contributes to an Objectionable Odor or Odors:** This State Rule shall not apply to
the following source of objectionable odor until such time as feasible control methods are
developed: Internal combustion engines.

b. 45CSR21—To Prevent and Control Air Pollution from the Emission of Volatile Organic
Compounds: All storage tanks at the station, which are listed as insignificant sources, are
below 40,000 gallons in capacity, which exempts the facility from 45CSR§21-28. The station
is not engaged in the extraction or fractionation of natural gas, which exempts the facility
from 45CSR§21-29.

c. 45CSR27—To Prevent and Control the Emissions of Toxic Air Pollutants: Natural gas is
included as a petroleum product and contains less than 5% benzene by weight. 45CSR§27-2.4
exempts equipment “used in the production and distribution of petroleum products providing
that such equipment does not produce or contact materials containing more than 5% benzene
by weight.”

d. 40 C.F.R. Part 60 Subpart JJJJ—Standards of Performance for Stationary Spark Ignition (SI)
Internal Combustion Engine:  All SI engines located at this site were installed before July 12,
2006. Thus, these engines are not subject to 40 C.F.R. Part 60 Subpart JJJJ. [40CFR§60.4230(a)(4)]

e. 40 C.F.R. Part 60 Subpart OOOO—Standards of Performance for Crude Oil and Natural
Gas Production, Transmission, and Distribution for which Construction, Modification, or
Reconstruction Commenced after August 23, 2011 and on or before September 18, 2015:  The
Storage Vessel requirements defined for transmission sources are not applicable to this site
because all vessels commenced construction, or were modified or reconstructed, prior to
August 23, 2011 in accordance with 40CFR§60.5365(e).

f. 40 C.F.R. Part 60 Subpart OOOOa—Standards of Performance for Crude Oil and Natural
Gas Facilities for which Construction, Modification, or Reconstruction Commenced after
September 18, 2015:  The requirements defined by this NSPS are not applicable to this site
because all affected sources commenced construction, or were modified or reconstructed,
prior to September 18, 2015 in accordance with 40CFR§60.5365a.

g. 40 C.F.R. Part 60 Subpart Dc—Standards of Performance for Steam Generating Units:  The
heating system boiler at this facility is less than 10 MMBtu/hr design heat capacity, which is
below the applicability criteria stated in 40CFR§60.40c(a).

h. 40 C.F.R. Part 60 Subpart K and Ka—Standards of Performance for Petroleum Liquid
Storage Vessels:  All tanks at the station are below the applicability criteria of 40,000 gallons
in capacity as stated in 40CFR§60.110(a) and §60.110a(a).

i. 40 C.F.R. Part 60 Subpart Kb—Standards of Performance for Petroleum Liquid Storage
Vessels.  All tanks at the station are below the applicability criteria of 19,813 gallons in
capacity as stated in 40CFR§60.110b(a).

j. 40 C.F.R. Part 60 Subpart KKK—Standards of Performance for Equipment Leaks of VOC
from Onshore Natural Gas Processing Plants.  The station is not engaged in the extraction or
fractionation of natural gas liquids from field gas, the fractionation of mixed natural gas
liquids to natural gas products, or both.  As a result, the station has no affected sources
operating within this source category.

k. 40 C.F.R. Part 63 Subpart HHH—National Emission Standards for Hazardous Air Pollutants
from Natural Gas Transmission and Storage Facilities.  The station is not subject to Subpart
HHH since there are no affected dehydration units utilized at this site. Additionally the site is a minor HAP source.

1. 40 C.F.R. Part 64—Compliance Assurance Monitoring: The compliance assurance monitoring provisions of Part 64 are not applicable due to there being no add-on controls at this facility. [40CFR§64.2(a)(2)]

Request for Variances or Alternatives

None

Insignificant Activities

Insignificant emission unit(s) and activities are identified in the Title V application.

Comment Period

Beginning Date: September 17, 2021
Ending Date: October 18, 2021

Point of Contact

All written comments should be addressed to the following individual and office:
Beena Modi
West Virginia Department of Environmental Protection
Division of Air Quality
601 57th Street SE
Charleston, WV 25304
Phone: 304/926-0499 ext. 41283 • Fax: 304/926-0478
Beena.j.modi@wv.gov

Procedure for Requesting Public Hearing

During the public comment period, any interested person may submit written comments on the draft permit and may request a public hearing, if no public hearing has already been scheduled. A request for public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. The Secretary shall grant such a request for a hearing if he/she concludes that a public hearing is appropriate. Any public hearing shall be held in the general area in which the facility is located.

Response to Comments (Statement of Basis)

Not applicable.
