

GARAGE BULLETIN

Improper waste disposal will result in fines\$

LEAD BATTERIES

Store inside, return to distributor and keep records on transfer – **RECYCLE**

Or handle as universal waste

ANTIFREEZE

Properly store and label with secondary containment – **RECYCLE**

USED OIL FILTERS

Puncture, if possible, and *hot* drain for 24 hours

Recycle or dispose of in municipal trash once properly drained

BRAKE and TRANSMISSION FLUID

Manage as you would used oil. Ask your recycler how to store each – **RECYCLE**

USED GASOLINE FUEL FILTERS

Treat as hazardous waste, store separately and label storage container – **RECYCLE**, if possible

PARTS CLEANER

If a solvent is used, recycling is encouraged

Because of the liquid's potential hazardous nature, it is not always handled as a hazardous waste – some exceptions apply, contact DEP

For more information, visit www.dep.wv.gov or contact the West Virginia Department of Environmental Protection (304) 926-0475
