Contact: M. Ann Bradley, Esq.

* Inclusion on the SBAP qualified auditors list does not, in any way, constitute an endorsement or recommendation by the WV Small Business Assistance Program (SBAP), the WV Division of Air Quality (DAQ), the WV Department of Environmental Protection (DEP), or the State of West Virginia. However, the SBAP conducts reference checks on candidates and has established requirements that companies must meet to be included on the consultants list. Omission from the list does not necessarily imply that a contractor is unqualified to perform air-quality compliance audits or other air-related services. Most services provided by consultants are performed for a fee, to be paid by the recipient of the services. It is recommended that cost and payment arrangements be negotiated prior to the performance of any services.

** symbol preceding company name indicates an offer to provide a limited, initial conference/needs assessment to small businesses at no charge. Call the service provider for details.

Contact: Jill W. Merrill**

Company Description:

A successful reputation results from a commitment to provide responsive service and excellent products. Enthusiastic and innovative, the staff of Air/Compliance Consultants, Inc. (ACCI) is known both for their dedication to excellence and for their responsiveness to the needs of our clients. ACCI is distinguished because we provide testing, permitting, and regulatory support as an integrated service. Our expertise covers a complete range of compliance, testing and environmental management services.

We measure our success by the large percentage of repeat business that we achieve. Over 80% of ACCI's projects are from repeat clients! Our staff has been managing a wide array of environmental compliance programs for many clients for over 15 years.

Services Provided Include:

Source and CEM Testing

- Complete USEPA Reference Method Capabilities
- Compliance and Diagnostic Testing
- Trial Burns
- ASME Power Test Code Testing
- CEM Design and Specification
- CEM Certifications, Quality Assurance, and Monitoring Plans
- Parametric Emissions Monitoring (PEM)
- Leak Detection and Repair (LDAR)

Ambient Air Monitoring

- Ambient Air Sampling (PM10, TSP, Metals, Pb, Asbestos, PCBs, Dioxin, Pesticides, VOC)
- Construction and Remediation Site Monitoring
- Meteorological Monitoring
- Odor Sampling

Industrial Hygiene/Indoor Air Quality Services

- Industrial Hygiene Monitoring for Chemical, Biological and Physical Agents
- Asbestos Inspection and Monitoring
- Investigation of "Sick Building" and Building-Related Illness Complaints
- Microbiological (Mold/Bacteria) Evaluations and Sampling
- OSHA Compliance
- Health and Safety Plans and Training

Regulatory Compliance

- Emergency Response and Contingency Plans
- Expert Testimony
- Pollution Prevention and Waste Minimization
- RCRA Hazardous and Solid Waste Management, Assistance and Reporting
- Risk Management Plan Development (RMP)
- SARA Form R and Tier I/Tier II Reporting
- NO_x Budget Trading Program

Permitting and Modeling

- Emission Inventories
- Air Quality Impact Assessments
- Regulatory Analysis
- Major PSD/NSR Permits
- Title V Permits
- Minor Source Permits
- Dispersion Modeling
- Accidental Release Modeling

Auditing

- Multimedia Compliance Auditing
- Environmental Management Systems Planning, ISO-14001
- ASTM Phase I Environmental Site Assessments

Emissions Control Equipment

- Troubleshooting
- Equipment Design and Specifications
- BACT/MACT/RACT and LAER Analysis

ERSG, Inc.*

**2303 Roxalana Road
Dunbar, WV 25064
Phone:(304) 746-4780 Fax: (304) 746-4783
Contact: Fred L. Boggs**

Company Description:

Environmental Regulatory Service Group, Inc. (ERSG) has combined environmental regulatory experience of over 65 years. It has served clients in Air, Water, and Waste areas and has served a wide range of industry types. Additionally, ERSG has a qualified stack-testing group and offers services in that field.

Services Provided Include:

- Air permits including Regulation 13,14, and 30
- Title V Compliance Certification
- Certified Emissions Statement
- Emissions Inventory
- Compliance Stack Testing
- Method 9 and 22 visual emissions testing
- Project Management for Environmental Compliance
- Compliance Certification
- Toxic Release Inventories (TRI/ EPCRA/ SARA313)
- Compliance Inspections
- Change of ownership and name changes

*** Company information, including description was furnished by the consultant.**

GAI Consultants, Inc. *

**3412 Chesterfield Avenue
Charleston, WV 25304
Phone: (304) 926-8100 Fax: (304) 926-8180
Contact: Michael A. Fioravante, P.E.**

**570 Beatty Road
Monroeville, PA 15146
Phone: (412) 856-6400
Contact: Rick Palmer**

Company Description:

GAI Consultants, Inc. provides consulting services in civil, environmental, geotechnical and structural engineering and the related sciences. Founded in 1958, GAI has grown to over 400 employees in five (5) offices in the eastern United States. GAI's offices located in Charleston, WV and Monroeville, PA will be able to quickly serve any portion of the state. GAI's Charleston, WV office includes over 20 engineers, geologists, environmental specialists and technicians. The office serves clients in the mining, chemical, metals and manufacturing industries. The bulk of the Small Business Assistance Program (SBAP) work will be handled by the Charleston office, with backup provided by the Monroeville office. The offices work best in unison to serve the needs of the project.

Our Clean Air Act Compliance program strengths emphasize:

- Environmental management and technical know-how, based on years of industrial experience.
- In-depth experience in negotiating with government environmental regulatory agencies, at both the federal and state levels.
- Cost effective program development and follow up.
- Responsiveness to client requests.
- Cohesive core group technologies available to clients and cost competitiveness.
- Genuine client interest and desire to work on a partnership basis in addressing air regulatory activities.

Services Provided Include:

- Facility Surveys, Inventories, and Audits
- Risk Assessment and Risk Management
- Air Quality Design Services
- Facility Emissions and Dispersion Modeling
- Air Permitting Assistance (WV Regulations and Federal CAA)
- Assistance in Review of Air Regulations and Compliance Assessments
- Certified Emission Statements

*** Company information, including description was furnished by the consultant.**

H.C. Nutting Company *

**912 Morris Street
Charleston, WV 25301
Phone: (304) 344-0821 Fax: (304) 342-4711
Contact: John Blair**

**611 Lunken Park Drive
Cincinnati, OH 45226
Phone: (513) 321-5816 Fax: (513) 321-0294
Contact: Steve Rucker**

Company Description:

H.C. Nutting Company (HCN) has personnel qualified to perform NESHAP air testing, testing of air as compared to OSHA standards and air testing as it relates to the presence of airborne fungi. Much of HCN's equipment is furnished and maintained in-house for immediate access, including 18 air sampling pumps. All indoor air testing work is supervised by a Certified Industrial Hygienist (CIH).

Services Provided Include:

- Microbial Assessments
- Asbestos Abatement Oversight, Monitoring and Clearance
- Airborne Lead Testing
- Indoor Air Testings (IAQ)
- Personnel Exposure Monitoring for comparison to OSHA Permissible Exposure Limits (PELs)

*** Company information, including description was furnished by the consultant.**

HzW Environmental Consultants, Inc.*

**6105 Heisley Road
Mentor, OH 44060
Phone: 800-804-8484 Fax: 440-357-1510
Contact: Barbara Knecht, CHMM**

**945 Fourth Avenue, Suite 200B
Huntington, WV 25701
Phone:(304) 523-0224
Contact: Doug Cade**

Company Description:

HzW Environmental Consultants, Inc. (HzW's) professional staff includes geologists, engineers, chemists, industrial hygienists, biologists, and technicians who have a vast knowledge and understanding of the Resource Conservation and Recovery Act (RCRA), Comprehensive Environmental Response, Compensation and Liability Act (CERCLA or "Superfund"), Occupational Safety and Health Administration (OSHA) regulations, Sections 404 and 401 of the Clean Water Act, the Clean Air Act, and other state and federal regulations.

Services Provided Include:

- Reporting/permitting services on a monthly retainer basis
- Annual Clean Air Act (CAA) and SARA Section 313 reporting
- CAA Permit Applications for new or existing sources

*** Company information, including description was furnished by the consultant.**

Jones & Jordan Engineering, Inc.*

**223 George Street
Beckley, WV 25801
Phone:(304) 252-5872 Fax: (304) 252-6293
Contact: Robin Cook**

Company Description:

Jones & Jordan are experienced professionals with the most up to date staff and equipment that include professional engineers, licensed professional surveyors and planners, developers, mapping/design professionals in construction, mining and permitting.

Jones & Jordan also has experience and qualifications in Coal Mine Permitting, Environmental Site Assessments, Storm water Management, Wetland Services/Stream Mitigation, Air and Water Quality Construction Permitting (Before and After Construction).

Services Provided Include:

- Compliance Audits
- Emission Control Selection
- Purchasing
- Emission Control Engineering
- Rule 13 and Title V Permitting
- Certified Emissions Testing

*** Company information, including description was furnished by the consultant.**

Potesta & Associates, Inc. *

**2300 MacCorkle Avenue, S.E.
Charleston, WV 25304-1099
Phone: (304) 342-1400 Fax: (304) 343-9031
Contact: Scott R. Kisner**

Company Description:

Potesta & Associates, Inc (Potesta) is an engineering and environmental consulting firm with a full staff of qualified personnel to assist you with identifying air pollution sources, obtaining source permits and providing regulatory liaison. Our scientists and engineers have years of experience in providing air permitting and compliance services to a wide variety of clients.

Services Provided Include:

- Identification of potential air pollution sources and estimation of their emissions
- Development of pollution control strategies designed to meet state and federal emission requirements
- Preparation of minor and major permit applications for construction, modification or relocation
- Assemble draft permits in order to assure the applicant maximum flexibility
- Preparation of pollutant inventories
- Conduct multi-media compliance audits and inspections and provide recommendations for establishment of compliance, as necessary
- Visible emissions (opacity) performance testing
- Regulatory liaison in permitting and enforcement matters
- Asbestos evaluation and sampling
- Pollution prevention planning

*** Company information, including description was furnished by the consultant.**

Company Description:

Spilman Thomas & Battle, PLLC is one of the largest law firms in West Virginia, with a full-service legal practice and diverse client base. The Firm's practice extends throughout the state of West Virginia, to all adjoining states, and to other states across the country.

The goal of our Environmental Practice Group is to resolve the environmental challenges that face our clients in a cost-effective manner, calling upon the tools of negotiation, mediation, compliance planning, regulatory or legislative changes, and, where necessary, litigation. Our attorneys have provided environmental counseling to a wide range of businesses and industries, including manufacturing, mining, oil and gas development and transmission, forestry, banking and lending, and retail establishments.

Services Provided Include:

- Air emissions regulation and permitting
- Air-Related Environmental Compliance Audit (includes one (1) day of on-site record review, interviews and report for fixed fee, based on size and complexity of operations)
- Clean Air Act Section 304 (Citizens Suits)
- Permit Appeals
- Defense of Enforcement Actions
- Minor Source (Regulation 13) Permitting
- New Source Reviews
- Title V Permits
- Human health and ecological risk assessment applications

St. Albans, WV 25177
Phone: (304) 755-0721 Fax: (304) 755-1880
Contact:: Gregory E. Tieman, L.R.S.**

Company Description:

Triad Engineering, Inc. (Triad) was formed in 1975 by three engineers from West Virginia University and has steadily grown to become one of the 500 largest engineering firms in the country. Triad is employee owned from field support staff to senior managers. At Triad, we pride ourselves on our ability to perform top-quality work for our clients, which is both on schedule and within budget. Our company is small enough to be responsive to the needs of our clients and large enough to remain at the forefront of the engineering practice.

Triad is a full-service engineering firm specializing in the areas of environmental, civil, geotechnical, and mining engineering. Our firm includes a staff of over 225 full time employees located in seven offices across West Virginia, Virginia, Pennsylvania, and Maryland.

Services Provided Include:

- State and Federal regulatory and compliance assessments
- New Source Review Permitting (NSR) including Prevention of Significant Deterioration (PSD) and non-attainment (West Virginia Regulations 13, 14, and 19)
- Title V permitting and reporting
- Emissions Inventory
- Certified Emissions Statements (CES)
- Toxic Release Inventory (TRI)
- SARA 311/312 reporting
- Leak Detection and Repair (LDAR) program assistance
- Maximum Achievable Control Technology (MACT), Best Available Control Technology (BACT), Reasonably Available Control Technology (RACT) and Least Achievable Emission Rate (LAER) evaluations
- Asbestos inspections
- ISO 14000 and Environmental Management System (EMS) gap analysis, development, and implementation

Phone: (304) 525-0120 Fax: (304) 522-7615
Contact: Greg Menitti, P.E.

Company Description:

USFilter Engineering & Construction is a leading engineering firm in water, wastewater, air quality, hydrogeology, geographic information systems, regulatory compliance, and environmental outsourcing. Our multi-disciplinary staff of 390, including 87 Professional Engineers, addresses the requirements of small as well as complex projects, ranging from studies, permitting, and initial investigations to selection of treatment technologies and design/build of control and treatment systems. Our history of innovation with a commitment to adding value to every project we undertake has allowed us to meet the changing needs of local, national and international clients by pioneering state-of-the-art technology and introducing innovative solutions that are practical and cost-effective.

We specialize in environmental services such as: Environmental Consulting and Regulatory Compliance; Permitting; Air Quality Engineering; Odor Control; Water Studies and Evaluations; Conceptual/Process Engineering; Geoscience Services; Groundwater and Watershed Modeling; Stormwater Management; Solid Waste Management; Geographic Information Systems (GIS); and Design/Build Services for Municipal and Industrial Water and Wastewater Treatment Systems as well as Air Pollution Control Systems.

Services Provided Include:

Permitting

Construction permits for both major and minor sources (PSD and NSR)
Operating permits for major and minor sources, Title V, and FESOP
Permit modifications and renewals

Reporting

Annual reports, emission inventories
SARA Title III, etc.
Risk Management Plans (RMPs)
Multimedia Environmental Audits
Dispersion Modeling
PSD and NSR permit applications
Ambient air quality impact
Hazard assessment (Accidental Release Prevention 112R)
State Implementation Plans (SIPs)
Process Control Technology Evaluations
Process control recommendations
Control technology determinations
(RACT/BACT/LAER/MACT)

Economic feasibility studies

Ambient Air Monitoring

Meteorological monitoring
Continuous emission monitoring (CEMs)
Ambient measurements (PM, SO_x, NO_x, etc.)

Information Management Systems

Air quality database management system (AirBase[®])
Customized database programming
Data entry
Geographic Information Systems (GIS)

Detailed engineering

Develop engineering drawings
Specify and select control equipment, instrumentation, and controls

Start-up and Commissioning

Balancing of capture-and-control systems
Oversight of performance testing
Preparation of operating manuals
Evaluate capture and control systems and options
