Division of Mining and Reclamation (DMR) – Electronic Submission System (eSS) Submittal of Coal Related New UIC permits and UIC Reissuance permits

The WVDEP Division of Mining and Reclamation is pleased to announce the eSS submittal of Coal related New UIC permit and UIC Reissuance permit applications.

- The New UIC and UIC Reissuance permit applications can be found in the HPU Office preference of eSS.
- The eSS submission of both application types is required: paper applications will not be accepted after May 27, 2025.
- Final permits will be uploaded as an attachment to the eSS application in the Facts & Findings Section. Paper copies of the UIC permit will not longer be mailed.
- Applicants and parties with assigned association to an application, in eSS, will be notified of the final application decision via FINAL ACTION EMAIL NOTIFIER. A link in the email will open the eSS application where you can view and download the final permit from the Facts and Findings Section.
- In Application Extender (AX), a link to the eSS application will direct interested parties to the eSS application where they can view and download the final permit from the Facts & Findings Section.
- **Only New UIC and UIC Reissuance application are available**, in eSS, currently. Additional coal related UIC permit applications will be developed and you will be notified once they are ready for use.
