

Compliance Bulletin

Division of Mining and Reclamation (DMR) – Electronic Submission System (eSS) Submittal of All UIC Permit Applications and Submittal Types

The WVDEP Division of Mining and Reclamation is pleased to announce ALL Coal Related UIC Permit applications and submittals are now available in eSS.

- All new Coal related UIC permit applications, Reissuances, Modifications, and all Reporting and Notifications are now available in the HPU Office preference of eSS.
- The new UIC and UIC Reissuance application have been updated to include information regarding Rule Authorized Injection information.
- Annual Reports, Well Installation Documents, Pre-Closure Notification, Closure Notifications, and UIC Rule Authorized Monitoring Reports are to be submitted as Reporting and Notification Requirements: UIC (UICRN).
- Applicants and parties with assigned association to an application, in eSS, will be notified of the final application decision via FINAL ACTION EMAIL NOTIFIER. A link in the email will open the eSS application where you can view and download the final permit from the Facts and Findings Section.
- In Application Extender (AX), a link to the eSS application will direct interested parties to the eSS application where they can view and download the final permit from the Facts & Findings Section.
- The eSS submission of these permitting actions/submittals is required: paper applications/submittals will not be accepted after September 29, 2025.
