

# EARTH BINGO

## Nature Name or Initial

Making your nature name or initial is a fun and easy craft. The bonus is that you get two activities in one since you will need to go on a nature hike to collect a variety of natural elements for your project.

Level of Difficulty: Easy

### Materials Needed:

- Sturdy Paper or Card Stock
- School glue or glue gun
- Pencil
- A collection of natural elements

### Directions:

1. Take a bag, go for a walk and gather interesting items for your project. Items you might find to use include leaves, twigs, sticks, bark, moss, pinecones, flowers, seeds, berries, nuts, pebbles, stones, or feathers. Do your best to leave the area as you found it by collecting items that have already fallen to the ground.
2. Using the pencil, lightly write your name or make an outline your initial on your paper.
3. Glue natural items from your collection over the lines of your penciled name or use them to fill in the outline of your initial.
