DEP approves 14 applicants for FY2023 CED Recycling Grants

Under the Rehabilitation Environmental Action Plan (REAP), fourteen applicants have been approved for grant amounts totaling \$101,100.00 in the Department of Environmental Protection's Covered Electronic Devices (CED) Recycling Grant Program.

Established in 2008 under the DEP's Rehabilitation Environmental Action Plan (REAP), the CED Program requires that manufacturers register their brands with the State. The fees collected from this program allow counties and municipalities to apply for CED recycling grants to conduct electronic collection events and support ongoing collection programs.

The goals of the program are to update registration status annually for manufacturers of covered electronic devices, to determine if manufacturers have adopted or implemented a free take-back/recycling program for their products and to award recycling grants to counties and municipalities for recycling or other programs that divert covered electronic devices from the waste stream. A list of the CED brands which have approved take back programs free to consumers can be found within the WV Materials Recycling Directory available at go.wv.gov/recycling

Grants will be awarded to:

<u>BERKELEY COUNTY SOLID WASTE AUTHORITY</u>	\$8,000.00
To fund transportation costs for the County's ongoing CED collection program.
