

Hazardous Waste Management Compliance in the State of West Virginia

Compliance - Can you afford not to be compliant?

What is required to become compliant with EPA and WVDEP hazardous waste regulations?

What is required in the permitting process and does it apply to my company?

July 13, 2016

9:00 a.m. – 4:00 p.m.

About the Presenter

Dr. Terry L. Polen

This 6 hour seminar is being
conducted in coordination with
WVU-Industrial Extension and the
WVDEP. Dr. Terry L. Polen, DM,
PE, QEP, Ombudsman from the
WVDEP will be presenting.

Some of the topics covered:

- **Resource Conservation and Recovery Act (RCRA)**
- **Definition of Hazardous Waste and Characteristics of Waste**
- **Emergency Response**
- **Waste Characterization**
- **Determination of Generator Status**
- **Used Oil Management**
- **Transportation Container Marking and Labeling**
- **Waste Management and Satellite Accumulation**

About the Seminar

This one day course is designed
to inform and guide participants in
both federal (EPA) and West
Virginia (DEP) hazardous waste
compliance requirements. The
course is designed to teach
participants on understanding,
applying compliance
requirements, and
implementation of these
requirements in their facility.

The course should be attended
by managers or individuals who
manage hazardous waste. This
includes the generation,
transportation, treatment,
storage, or disposal of hazardous
waste.
