About the Presenter

Dr. Terry L. Polen

This 6 hour seminar is being
conducted in coordination with WVU-
Industrial Extension and the WVDEP.
Dr. Terry L. Polen, DM, PE, QEP,
Ombudsman from the WVDEP will be
presenting.

Some of the topics covered:

- **Permits/Permitting Process**
- **National Pollutant Discharge Elimination System (NPDES)**
- **Clean Water Act**
- **Developing Storm Water Pollution Prevention Plans (SWPPP) & Ground Water Protection Plans (GWP)**
- **Above Ground Storage Tank Regulations**
- **Spill Prevention Control and Countermeasures (SPCC)**

About the Seminar

This one day course is designed to
inform participants of the permitting
requirements as well as a guide in
the requirements of a compliant
SWPPP/GWP - its required
elements, planning, preparations,
inspections, implementation and
common pitfalls.

Upon completion of this class you
should be able to develop and
implement a SWPPP/GWP in your
facility. If you facility already has a
Storm Water Pollution Prevention
Plan/Ground Water Protection Plan
you will have a clear understanding
of the requirements and possible
violations when plans are not
implemented and maintained.

Above ground storage tank
regulations will also be reviewed.
This includes current regulation
requirements and any upcoming
regulations/modifications and
potential impacts.
